Address: 648 W Mill

Research Findings:

The primary structure at 648 W Mill is an example of Craftsman style architecture. Defining features include dual front facing gables, visible brackets at the roof eaves, a covered front porch supported by square columns, and exposed rafter tails.

The home was built ca. 1919 by William Sherman Suttle. In 1901, William married Nancy Cordelia Hungate, and together they had three children. Census records from 1920 indicate William worked for the local flour mill as a superintendent at that time, and in his later years worked as a real estate and insurance agent. William Suttle was a veteran of the Spanish American War and died in 1968.

Nancy Cordelia was a member of the Order of the Eastern Star, which is a Masonic appendant body open to both men and women. According to newspapers from the 1920s and 1930s she served in a variety of officer positions including matron and conductress. She died in 1965.

West Mill Street represents both Town and Acre lots distributed and sold in 1845 by the Verein. Original Town Lots include 213 through 216 and Acre Lots 1, 2 and 168. The Ferguson and Hesler Firm purchased Acre Lot #2 from Charles Siebert on April 17, 1847. (Volume A, Page 28) then divided the property into 10 lots and added a road named "Ferguson Street". By 1850 New Braunfels was the fourth largest town in Texas. Houses representing the "German Settlement Period" include the George Ullrich Haus at 528 W. Mill Street, the Habermann House at 543 W. Mill Street, the Geue House at 554 W. Mill, and the Geue-Milburn House at 185 Ferguson Street.

The neighborhood is home to the New Braunfels Academy, a local landmark and Registered Texas Historic Landmark. In 1858, New Braunfels' citizens voted unanimously to impose a tax for the support of a public school eighteen years before the Constitution of 1876 provided for such local taxation throughout Texas. In 1884, the city purchased lots 213 and 214 for the use of schools. In January of 1913, the school board called a special meeting which they decided to; build a new schoolhouse on the site of the existing New Braunfels Academy School, purchase the property behind lots 215 and 216, plus form an independent school district which would be separate from the city. June of that same year, San Antonio architecture firm CV Seutter & Shand were engaged for \$500. Local contractor Adolph Moeller had the lowest bid of \$44,873 and took eleven months to construct with a cost overrun of \$5,500.

The Railroad came in 1880 and laid the track on Hill Avenue. On the 1881 "Birds Eye View of New Braunfels" map, nine houses are visible on the 500 block of W. Mill Street. In 1902 a portion of W. Mill Street is shown with houses at 477 and 480 W. Mill Street.

Uncommonly painful and snoring to his loving family was the sudden and unexpected death of young Oscar Kuebel, son of Mr. and Mrs. E. J. Kuebel, of Spring Branch, who died at Camp Bowie Fort Worth, Saturday December 21st, at the youthful age of 24 years. The cause of the young man's death was not made known to his parents, who were struck as though by lightning from a clear sky, when Saturday they received a telegram from the military headquarters at Camp Bowie, announcing the death of their son. He had had the measles almost a month ago, but was known to have recovered from that disease. Young Kuebel was one of the 32 young recruits who left from New Braunfels September 21, for Camp Travis. Early in November together with other Comal County men, he was ordered to Camp Bowie, where he died on the date above stated. The departed was the second Comal County man to lose his life in the service for his country. His body being shipped to New Braunfels for burial, arriving here last Monday. The funeral took place on the family grave lot on the Kuebel farm at Spring Branch, Monday evening Mr. Chas. Wieland spoke at the grave and a host of sympathizers from far and near attended the

obsequies.

Deceased is deeply mourned by his parents, three brothers Albert, Edgar and Carl Kuebel, and two sisters, Mrs. Hulda Yung and Mrs. Gustav Elbel.

The Herald joins their many friends in extending heartfelt sympathy in the days of their deep sorrow.

In the prime of his life, at the age of 22 years and 9 months, Edgar Karl Kramme, son of Mr. and Mrs. Carl Kramme, near this city, died at Camp Bowie, Fort Worth, on Thursday, December 6. The cause of his death was pneumonia. Deceased was the first of Comal County's contingent of the newly organized national army and lost his life in the service of his country. He was born near New Braunfels in 1895, and lived here all his life. He was one of the group of 32 Comal County men called into service September 21, ordered to Camp Travis, and later transferred to Camp Bowie.

During his eight days' sickness his brother Carl went to the army camp and rendered all practical aid to the patient, and together with private Hellmuth Ludwig of Camp Bowie, accompanied the body of deceased to New Braunfels. The national flag and a precious bouquet of flowers dedicated by Co. F, 141 Infantry, to which deceased belonged, decorated the coffin. A large procession of

friends followed the body to the grave on New Braunfels Cemetery, Saturday, where pastor Morhinweg conducted the funeral services. Active pall bearers were his early friends, Werner Wolfshahl, Oscar Harms, Egon Hoeke, Oscar Stratemann, Ben Werner, and Egon Neuse. A sympathetic incident to the funeral was six young ladies, all cousins of the departed, carrying wreaths in their hands, walking with the bearers to the grave, they were Misses Meta Grimm, Olga Werner, Tony Grimm, Olga Voigt, Frieda Werner and Elsie Werner. Deceased is survived by his parents, a brother, Carl Kramme, and two sisters, Mrs. Emil Krueger and Mrs. Otto Krueger, and a number of other relatives. The bereaved family have the sympathy of a large number of friends in their deep sorrow.

What Inside Tyres Do

Inside Tyres reinforce the tire casing and protect the inner tube. If used in a casing its life will be prolonged from 1000 to 5000 miles. They may be put into any casing that is not already ruined and worthless. The casing should protect the Inside Tyre from direct contact with the road, and if it does that, an Inside Tyre will prove more than satisfactory in every instance.

A. F. HABERMANN & SON
Phone 126 Box 385

This cut shows a cross section of a tire. Note where the Inside Tyre is placed between the Casing and Tube. You can readily see the protection it gives to the tube and how it reinforces the fabric or backbone of the casing.

MODERNIZE YOUR KITCHEN with modern plumbing. Have your sink in new enameled tubs, a new white sink, or a water heater to your boiler. You will find the kitchen work actually easier and far pleasanter. Healthier, too, to work in such a place. The cost will let us surprise you by telling you how little the expense will be.
