1. The first step in the process of the development of a new product is the identification of a market need. This is often done through market research, which can be conducted in a number of ways, including surveys, focus groups, and interviews. The goal is to understand what customers want and what problems they are trying to solve.

2. Once a market need has been identified, the next step is to develop a concept for a new product that addresses that need. This involves brainstorming ideas and creating a rough sketch of the product. It is important to consider the feasibility of the idea and whether it can be produced at a reasonable cost.

3. The third step is to create a prototype of the product. This is a physical model of the product that can be used to test the design and make any necessary adjustments. Prototyping can be done in a number of ways, including 3D printing, CNC machining, and hand fabrication.

4. After a prototype has been created, the next step is to conduct a small-scale test of the product. This involves giving the product to a small group of people and asking them to use it and provide feedback. This can help to identify any issues with the design and make improvements before moving forward.

5. The final step in the process is to launch the product into the market. This involves creating a marketing plan and promoting the product through various channels, such as social media, email, and direct mail. It is important to monitor the product's performance in the market and make any necessary adjustments to the marketing plan.

Performance Guarantee

The purpose for this Performance Guarantee is to ensure that drainage facilities for the Highland Grove Subdivision are constructed in accordance with the approved design criteria (as detailed in the approved drainage report) and all applicable City of New Braunfels ("City") rules and regulations in effect at the time the Highland Grove Planned Development District Concept Plan (the "Concept Plan") is approved by City Council.

Terms:

1. All drainage facilities required to be constructed within the Highland Grove Subdivision shall operate to meet or exceed the approved design criteria for their respective Coverage Periods (defined below), provided, however, any drainage ponds and appurtenances for each Drainage Area (as defined on the attached Drainage Area map) may not fully meet the approved design criteria until all streets within that Drainage Area are fully constructed. In the event the City determines that drainage facilities are not required for any Drainage Area, this section of the Development Standards shall be considered null and void in regard to such Drainage Area (or in the whole if drainage facilities are not required for any Drainage Area).
2. As used herein, the term "Coverage Period" shall mean a two (2)-year period of time commencing upon the date that forty percent (40%) of the homes within a given Drainage Area, as illustrated in the attached Drainage Area Map, have been issued certificates of occupancy and one-hundred percent (100%) of the streets and drainage infrastructure has been constructed to service those homes making-up the forty percent (40%) within the Drainage Area (the "Commencement Date"), and ending on the second annual anniversary of such Commencement Date. Each drainage facility within the Highland Grove Subdivision shall be subject to separate Coverage Periods and shall require separate Cash Sureties as described below.
3. In order to provide financial security for the obligation described in Paragraph "1" above, Applicant (as listed on the approved Concept Plan), or his successors and assigns, shall post with the City Cash Surety (as defined below) within thirty (30) calendar days of the Commencement Date for each Coverage Period in the amount of ten percent (10%) of the cost of drainage improvements for that particular Drainage Area. A

statement of construction value shall be provided to the City Engineer to support the Cash Surety Amount.

4. As used herein, the term "Cash Surety" shall mean one of the following, which the Applicant may chose at its own discretion:
 - a. Cash, or its equivalent, delivered to the City and to be held by the City in a separate, interest-bearing account with all interest thereon belonging to the Applicant;
 - b. An irrevocable letter of credit issued by a financial institution reasonably acceptable to the City; or
 - c. A performance bond issued in the name of the City on terms reasonably acceptable to the City.
5. If, during the Coverage Period, the City Engineer, or a third party engineer selected by the City, sends a written notice to Applicant stating in that notice that the drainage improvements for any Drainage Area within the Highland Grove Subdivision is not operating to meet the design criteria specified in the approved design documents (and specifying in such notice the specific deficiencies in such operation), within thirty (30) days thereafter Applicant shall do one of the following: (a) notify the City in writing that the Applicant shall rectify the problems specified by the City Engineer or City's third party engineer, or (b) notify the City in writing that Applicant disagrees with the conclusion of the City Engineer or City's third party engineer. In the event that Applicant fails to send either of the two written notices specified above within such thirty (30)-day period, Applicant shall be deemed to have selected option (a) above.
6. In the event that Applicant notifies the City that Applicant will rectify the problems specified by the City Engineer or City's third party engineer as contemplated in Paragraph "5" above, Applicant shall be required to complete such necessary work in a reasonably expeditious manner, not to exceed ninety (90) days from the date Applicant provides such notice (or, if any permit is required to begin such work, ninety (90) days from the date of issuance of such permit), subject to force majeure and/or any action by the City causing delay.
7. In the event that Applicant notifies the City that Applicant disagrees with the conclusion of the City Engineer or City's third party engineer, the City and Applicant shall agree on another independent third party engineer within fifteen (15) days of the City's receipt of Applicant's written notice. In the event that the City and Applicant fail to agree on the designation of such independent third party engineer within such fifteen (15)-day period, the City shall select such independent third party engineer. The

Independent third party engineer shall determine if the drainage improvements for the Drainage Area in question are operating to meet the design criteria in the approved design documents, and the conclusion of the independent third party engineer in that regard shall be binding on the Applicant, its successors and assigns, and the City; provided, however, nothing is intended to modify or reduce Applicant's obligations pursuant to State law (regulatory or common law) with respect to drainage from the Highland Grove Subdivision onto adjoining properties. In the event that the independent third party engineer specifies in a written notice to Applicant that the drainage improvements for the Drainage Area in question are not operating to meet the design criteria in the approved design documents (and specifying in such notice the specific deficiencies in such operation), Applicant shall be required to complete such necessary work in a reasonably expeditious manner, not to exceed ninety (90) days, subject to force majeure or City action causing delay, from the receipt by Applicant of the written notice from the independent third party engineer. Applicant shall be responsible for paying the inspection costs of such independent third party engineer, not to exceed \$3,000.

8. In the event that Applicant fails to rectify the specified problems in the drainage improvements for the Drainage Area in question within the ninety (90)-day period, subject to force majeure or City action causing delay, under either Paragraph "6" or "7" above, the City shall have the right to utilize the Cash Surety to rectify the specified problems in the drainage improvements for that Drainage Area. The City shall be required to notify Applicant in writing of the City's election to utilize the Cash Surety for this purpose.
9. Within 30 days following the expiration of each Coverage Period, the City shall return to Applicant any unused Cash Surety.
