4. CITIZEN'S COMMUNICATIONS

Lois Schmick is in attendance as an observer

5. DISCUSSION AND ACTION

a. Field of Graves

Bernadette reported that construction drawings and cost estimates are progressing, and she requested a finalized version of the signage draft, noting that the current version may be too wordy. She plans to send her presentation to Shari so it can be included in the group's meeting minutes. She also asked the group to finalize the materials that will be used for the signs.

b. Soul Searching

The group is continuing its work on this year's event, *Naturalists and Scientists*. Shari has prepared the banner, which is ready to be hung on the cemetery fence. Community members are still signing up to volunteer through Sign Up Genius. The brochure is currently being developed by Sarah in the Communications Department. The team is also refining scripts and finalizing the actor assignments for each role. Vickie Hamel will be writing the trailer talker script, and Marshall will be drafting the halftime show script. The group will continue progressing on all aspects of the event. They also discussed props and identified soul mates for each of the featured souls.
