The Engineering Division reviewed the TIA Determination application and associated documents for the referenced development. Based on the information provided in the application, this application is part of another permit by the same name (TIA230-0082) and they shall be combined for a complete and thorough analysis. This submittal is a small portion of the trips and would not alone trigger a TIA report.

Please contact the Engineering Division at (830) 221-4275 if you have any questions or need any additional information.

Respectfully,
