- (b) The City shall determine: (i) whether a failure to comply with a provision has occurred; (ii) whether the failure is excusable; and (iii) whether the failure has been cured or will be cured by Landowner or Developer (as applicable). The Landowner or Developer (as applicable) shall make available to the City, if requested, any records, documents, or other information necessary to make the determination, except to the extent that such information is protected by attorney/client privilege.
- (c) If the City determines that the failure has not occurred, or that the failure either has been or will be cured in a manner and in accordance with a schedule reasonably satisfactory to the City, or that the failure is excusable, the determination shall conclude the investigation.
- (d) If the City determines that a failure to comply with a provision has occurred and that the failure is not excusable and has not been or will not be cured by Landowner or Developer (as applicable) in a manner and in accordance with a schedule reasonably satisfactory to the City, then the City shall notify the Developer and may pursue any and all remedies it has at law or equity.

Section 4.4. Remedies. In addition to all the rights and remedies provided under the laws of the State of Texas, because of the peculiar damage each party hereto might suffer by virtue of a default by another party, each party shall be entitled to the equitable remedy of specific performance or mandamus, as well as all other legal and equitable remedies available.

Section 4.5. Termination. This Agreement may be terminated by mutual agreement of the City and the Developer.

ARTICLE V ANNEXATION AND STRATEGIC PARTNERSHIP AGREEMENT

Section 5.1. The Parties acknowledge that Landowner is voluntarily requesting annexation of the Tract to occur upon the dissolution of the District and that this Agreement satisfies the requirements for a service agreement as required by Texas Local Government Code Section 43.0672.

Section 5.2. The City Council may after dissolution of the District and after a public hearing on the matter annex the Tract by adoption of an ordinance. Upon annexation of the Tract into the City, the City shall provide those municipal services to the annexed lands in the same manner as those services are provided to other areas of the City with similar characteristics of topography, land, use, and population density. Notwithstanding the foregoing, the City agrees that it will not annex any portion of the Tract without Developer's consent until (1) the expiration or termination of this Agreement, or (2) the completion of at least 90% of the construction of the public infrastructure necessary to serve the Tract with water, wastewater, drainage facilities, road improvements, and other facilities eligible for reimbursement under the rules of TCEQ or other law, and either (i) bonds have been issued by the District to finance the eligible costs of all such infrastructure in accordance with the rules of the TCEQ, or (ii) the City has expressly agreed to assume the obligation to reimburse the Developer under the TCEQ rules.

Section 5.3. The Parties acknowledge that the foregoing annexation provisions have been agreed upon pursuant to the authority set forth in Section 212.172 of the Texas Local

Government Code, which authorizes the governing body of a municipality to make a written contract with an owner of land that is located in the extraterritorial jurisdiction of the municipality to provide for the annexation of the land as a whole or in parts and to provide for the terms of annexation, if annexation is agreed to by the parties, and further provides for the parties to such agreement to specify the uses and development of the land before and after annexation, if annexation is agreed to by the parties. The Parties acknowledge a written disclosure regarding annexation, as established in the attached Exhibit D, was provided to the Developer pursuant to Section 212.172(b-1) of the Texas Local Government Code.

Section 5.4. The voluntary request for annexation of the Tract shall survive the termination and term of this Agreement.

Section 5.5. Section 43.0751, Texas Local Government Code (the “Act”), provides for the negotiation and implementation of “strategic partnership agreements” between cities and municipal utility districts. Upon assumption hereof and creation of the District, the Developer agrees to use good faith efforts to cause the District to enter into a strategic partnership agreement with the City containing terms approved by both parties that are consistent with terms of this Agreement.

**PETITION FOR CONSENT TO THE
CREATION OF A MUNICIPAL UTILITY DISTRICT**

THE STATE OF TEXAS §
 §
COUNTY OF COMAL §

TO THE HONORABLE MAYOR AND CITY COUNCIL OF THE CITY OF NEW BRAUNFELS, TEXAS:

The undersigned (herein referred to as the "*Petitioner*"), holder of title to all land within the territory hereinafter described by metes and bounds, and acting pursuant to Section 54.016, Texas Water Code, and Section 42.042, Texas Local Government Code, respectfully petitions the City Council of the City of New Braunfels, Texas, for its written consent to the inclusion of land in, and the creation of, a conservation and reclamation district and would respectfully show the following:

I.

The name of the proposed district shall be Comal County Municipal Utility District No. 3 or some other name as required or permitted by law (the "*District*").

II.

The land shall be included within the District by creation and organization of the District as provided above. The District shall be organized under the terms and provisions of Article III, Section 52 and Article XVI, Section 59 of the Constitution of Texas, Chapters 49 and 54 of the Texas Water Code, and any special act of the Texas Legislature either creating the District or otherwise applicable thereto, together with all amendments and additions thereto.

III.

The District will contain approximately 637.72 acres of land, more or less, situated in Comal County, Texas. The land proposed to be included within the District is described in **Exhibit "A"** attached hereto and is located within the extraterritorial jurisdiction of the City of New Braunfels, Texas. All of the territory proposed to be included may properly be included in the District.

IV.

The undersigned is the owner of and holds title to all of the lands within the proposed District as indicated by the tax rolls of Comal County, Texas.

V.

The purposes of and the general nature of the work proposed to be done by the District shall be the purchase, construction, acquisition, repair, extension and improvement of land, easements, works, improvements, facilities, plants, equipment and appliances necessary to:

1. provide a water supply for municipal uses, domestic uses and commercial purposes;
2. collect, transport, process, dispose of and control all domestic, or communal wastes whether in fluid, solid, or composite state;
3. gather, conduct, divert and control local storm water or other local harmful excesses of water in the District and the payment of organization expenses, operational expenses during construction and interest during construction;
4. design, acquire, construct, finance, improve, operate, and maintain macadamized, graveled, or paved roads, or improvements in aid of those roads; and
5. to provide such other facilities, systems, plants and enterprises as shall be consonant with the purposes for which the District is created and permitted under state law.

VI.

There is, for the following reasons, a necessity for the above-described work, services and improvements: The area proposed to be within the District will experience substantial and sustained residential, multi-family and commercial growth. There is not now available within the area, which will be developed as a master-planned single-family residential and commercial development, an adequate waterworks system, sanitary sewer system, drainage and storm sewer system, or road system. The health and welfare of the present and future inhabitants of the area and of territories adjacent thereto require the construction, acquisition, maintenance, and operation of an adequate waterworks system, sanitary sewer system, and drainage and storm sewer system, and roadway system. A public necessity therefore exists for the organization, extension, improvement, maintenance, and operation of such waterworks system, sanitary sewer system, and drainage and storm sewer system, and road system, so as to promote the purity and sanitary condition of the State's waters and the public health and welfare of the community.

VII.

A preliminary investigation has been instituted to determine the cost of the project, and it is now estimated by the Petitioner, from such information as it has at this time, that the ultimate costs of the development contemplated will be approximately \$70,000,000.00. The project will be financed by the issuance of bonds by the District.

WHEREFORE, the Petitioner respectfully prays that this request be heard and that your Honorable Body duly pass and approve an ordinance or resolution granting the consent to the creation of the District and authorizing the inclusion of the land described herein within the District.

RESPECTFULLY SUBMITTED, this 17 day of Feb, 2022.

B. You, the landowner, are not required to enter into this Agreement. The consent provided by the City of New Braunfels for creation of the District was, however, predicated upon the District and those who develop within the District abiding by certain conditions included within the consent Resolution. One such condition was entering into a development agreement with the City of New Braunfels.

C. But for the Agreement or a strategic partnership agreement with the District, the City of New Braunfels may only annex your property as provided by Local Government Code Chapter 43 Subchapter C-3, Annexation of Area on Request of Owners; Subchapter C-4, Annexation of Areas with Population of Less Than 200 by Petition; or, Subchapter C-5, Annexation of Areas with Population of At Least 200 by Election.

D. Annexation Procedures, Generally

Local Government Code Chapter 43 Subchapter C-3, Annexation of Area on Request of Owners requires that each owner of land in the area requests the annexation. Before adopting an ordinance to complete an annexation under Subchapter C-3, the City would first negotiate with the landowners for the provision of services to the area and hold one public hearing where persons from within the area could be heard.

Subchapter C-4, Annexation of Areas with Population of Less Than 200 by Petition requires that, before annexing an area with a population of less than 200, the City must first receive a petition

consenting to the annexation signed by more than 50% of the registered voters of the area or more than 50% of the owners of land in the area. The City must then pass a resolution detailing services to be provided within the area after annexation, mail notice of the proposed annexation along with the services to be provided, date of the public hearing to be held, and an explanation of the 180 day petition period.

Subchapter C-5, Annexation of Areas with Population of At Least 200 by Election requires that the municipality holds an election in the area proposed to be annexed at which the qualified voters of the area may vote on the question of the annexation and a majority of the votes received at the election approve the annexation; and if the registered voters of the area do not own more than 50 percent of the land in the area, the municipality obtains consent to annex the area through a petition signed by more than 50 percent of the owners of land in the area.

E. A municipality that enters a contract waives immunity from suit for the purpose of adjudicating a claim for breach of the contract. A development agreement entered into pursuant to Local Government Code Chapter 212.172 is a contract and constitutes a permit under Local Government Code Chapter 245.
