The Software, System, Hosting Services, and Hosted Solution will perform substantially in accordance with the Contract Documents and this Hosting Services Agreement, and if the Hosted Solution fails to perform within the response-time performance levels or functions and capabilities described herein, then TLC will make whatever enhancement to the Hosted Solution that is necessary to provide the contracted levels of performance and functionality as specified by this Hosting Services Agreement within a reasonable time frame and at no cost to the Library.
- b. During operation of the Hosted Solution under normal business conditions during hours of operations of Library in which the activities of users are not scripted to create pre-defined transaction mixes for purposes of stress-testing licensed software or the response-time performance or capacity of the licensed software, the Hosted Solution shall perform transactions with average response times of ≤ 2 seconds as measured at workstations connected to the Hosted Solution server at the Host Location.
- c. On demand during the term of this Hosting Services Agreement, a thirty (30) minute response time test can be conducted by the Library to determine whether the Hosted Solution is meeting response times of ≤ 2.5 seconds at the Library's locations for transactions using one (1) to three (3) workstations connected to the Hosted Solution.
- d. If the Library determines that the Hosted Solution is performing transactions at a Library site with an average response time of > 2.5 seconds, then TLC shall measure performance of transactions at the Host Location and if the average response time of the Hosted Solution is found to be > 2 seconds, then TLC will make whatever enhancement to the Hosted Solution that is necessary to provide average response times of ≤ 2 seconds as measured at workstations connected to the Hosted Solution server at the Host Location.

6. Acceptance of the System, Hosted Solution, and Hosting Services

- a. TLC agrees that the Library may test the performance of the System, Hosted Solution, and Hosting Services for an Acceptance Test Period of thirty days from the Installation Date and

notify TLC of any non-conformance in performance of the Hosted Solution with the functionality and response times as specified in the Contract Documents and this Hosting Services Agreement.

b. If, during the Acceptance Test Period the Library so notifies TLC of any such non-conformance, TLC shall use its best efforts to resolve each non-conformance, and the Acceptance Test Period will then be re-started, during which Library may begin again testing of the Hosted Solution for thirty days from that time. Such testing will continue until the Library notifies TLC that the Hosted Solution is acceptable or until the Acceptance Test Period has expired without notification by the Library to TLC of a non-conformance.

In the event that any non-conformance cannot be resolved to the Library's satisfaction, TLC and the Library agree to engage in negotiations to establish an understanding and basis for the Library's continued use and acceptance of the System, Hosted Solution, and Hosting Services.
