ARTICLE 4
PROMOTIONS

Section 1. Intent

In adopting this Article, the Parties agree to implement a promotional system using an Assessment Center component in addition to the written examination. The Parties believe adding an assessment component to the promotion process will improve the selection and provide promotional candidates a fair opportunity to display skills and abilities that serve as additional indicators that they will perform well in the position of Fire Lieutenant, Fire Captain or Battalion Chief. Applicants will be required to pass the written examination and participate in and complete all components of the assessment center before being placed on the eligibility list for promotion.

Section 2. Promotional Examination Procedure

- (a) The Commission shall adopt rules governing the promotional examination procedure and promotional eligibility lists in accordance with this Article and the Local Rules for the promotional positions of Fire Lieutenant, Fire Captain, and Battalion Chief. Further, the Commission may adopt rules to provide for the efficient administration of a promotional examination to eligible promotional candidates who are members of the armed forces serving on active military duty.
- (b) The written examination will be based upon no more than three (3) written source materials, determined by the Department and approved by the Commission. The notice of source materials and notice of promotional examination shall be posted no fewer than ninety (90) days prior to the examination.
- (c) The promotional examination procedure will consist of two parts:
 - 1. a written examination, as defined in this article, consisting of one-hundred (100) multiple choice questions; and
 - 2. upon passing the written examination part of the promotional examination procedure, participation in and completion of all components of the Assessment Center.

Section 3. Written Examination

- (a) The promotional candidate's score on the written examination shall constitute the candidate's "written score". The minimum passing score on the written examination is seventy percent (70%). Promotional candidates who do not pass the written examination shall be eliminated from participation in the Assessment Center. This includes candidates on active military duty.

- (b) For a promotional candidate applying for the Fire Lieutenant classification, seventy percent (70%) of a promotional candidate's composite score will be based on the written score.
- (c) For a promotional candidate applying for the Fire Captain classification, sixty percent (60%) of a promotional candidate's composite score will be based on the written score.
- (d) For a promotional candidate applying for the Battalion Chief classification, fifty percent (50%) of a promotional candidate's composite score will be based on the written score.

Section 4. Assessment Center

- (a) Except for candidates on active military duty at the time of the written examination or Assessment Center, all candidates that receive a passing score on the written examination will advance to the Assessment Center. If a promotional candidate will be on active military duty on the date(s) of the scheduled Assessment Center, the candidate will not be required to participate in the Assessment Center. The candidate's written score shall account for one-hundred percent (100%) of the candidate's final score. If the candidate passes with a minimum of 70%, then the candidate's written score, after adding in seniority points and education points, shall account for one-hundred percent (100%) of the candidate's final score.
- (b) For a promotional candidate applying for the Fire Lieutenant classification, thirty percent (30%) of a promotional candidate's composite score will be based on an Assessment Center.
- (c) For a promotional candidate applying for the Fire Captain classification, forty percent (40%) of a promotional candidate's composite score will be based on an Assessment Center.
- (d) For a promotional candidate applying for the Battalion Chief classification, fifty (50%) percent of a promotional candidate's composite score will be based on an Assessment Center.

- (a) **Reset of Seniority Points.** For the purpose of promotional examination grades, seniority points will be accrued by certified firefighters at a rate of 1 point for every whole year served in that same rank within the New Braunfels Fire Department, not to exceed 10 seniority points. Each full year of service equals one (1) point. Seniority points will not be awarded for years of part-time employment. Under the provisions of the Uniformed Services Employment and Reemployment Rights Act of 1994, military service shall not be considered a break in service. Upon promotion to a higher rank, seniority points will reset to zero points. For the purpose of tie-breakers, seniority points will be awarded in accordance with the local civil service rules.

- (b) For promotional candidates applying for the Fire Lieutenant classification, the final score to be placed on the eligibility list for each candidate shall be computed by taking the candidate's written score and multiplying the written score by .70 to account for seventy percent (70%) of the candidate's composite score; by taking the candidate's Assessment Center score and multiplying that score by .30 to account for thirty percent (30%) of the composite score; by adding the products together to equal the composite score; and by adding any applicable seniority points, not to exceed ten (10) points, and education points, not to exceed three (3) points, to the composite score to compute the final score (see below). Only a candidate that successfully passes the written examination will have seniority points and education points added to the composite score.

$(\text{Passing Score on Written Examination} \times 70\%) + (\text{Assessment Center Score} \times 30\%) = \text{Composite Score}$

$\text{Composite Score} + \text{Seniority Points} + \text{Education Points} = \text{Final Score} *$

* The Parties mutually agree that the Seniority Points shall be calculated at their accrued value through the day of the written examination.

- (c) For promotional candidates applying for the Fire Captain classification, the final score to be placed on the eligibility list for each candidate shall be computed by taking the candidate's written score and multiplying the written score by .60 to account for sixty percent (60%) of the candidate's composite score; by taking the candidate's Assessment Center score and multiplying that score by .40 to account for forty percent (40%) of the composite score; by adding the products together to equal the composite score; and by adding any applicable seniority points, not to exceed ten (10) seniority points, and education points, not to exceed three (3) points, to the composite score to compute the final score (see below). Only a candidate that successfully passes the written examination will have seniority points and education points added to the composite score.

$(\text{Passing Score on Written Examination} \times 60\%) + (\text{Assessment Center Score} \times 40\%) = \text{Composite Score}$

$\text{Composite Score} + \text{Seniority Points} + \text{Education Points} = \text{Final Score} *$

* The Parties agree that the Seniority Points shall be calculated at the accrued value through the day of the written examination.

- (d) For promotional candidates applying for the Battalion Chief classification, the final score to be placed on the eligibility list for each candidate shall be computed by taking the candidate's written score and multiplying the written score by .50 to account for fifty percent (50%) of the candidate's composite score; by taking the candidate's Assessment Center score and multiplying that score by .50 to account for fifty percent (50%) of the composite score; by adding the products together to equal the composite score; and by adding any applicable seniority points, not to exceed ten (10) seniority points, and education points, not to exceed three (3) points, to the composite score to compute the final score (see below). Only a

candidate that successfully passes the written examination will have seniority points and education points added to the composite score.

$(\text{Passing Score on Written Examination} \times 50\%) + (\text{Assessment Center Score} \times 50\%) = \text{Composite Score}$

$\text{Composite Score} + \text{Seniority Points} + \text{Education Points} = \text{Final Score} *$

* The Parties agree that the Seniority Points shall be calculated at the accrued value through the day of the written examination.

(e) For promotional candidates applying for the Fire Engineer classification, the final score to be placed on the eligibility list for each candidate shall be computed by taking the candidate's written score, and adding any applicable seniority points, not to exceed ten (10) seniority points, and education points, not to exceed three (3) education points, to compute the final score (see below). Only a candidate that successfully passes the written examination will have seniority and education points added to the composite score. Promotional candidates applying for the Fire Engineer classification will not complete an Assessment Center.

$\text{Written Score} + \text{Seniority Points} + \text{Education Points} = \text{Final Score} *$

* The Parties agree that the Seniority Points shall be calculated at the accrued value through the day of the written examination.
