

The Texas Enterprise Zone Program (EZP) is an economic development tool for local communities to partner with the State of Texas to promote job creation and significant private investment that will assist economically distressed areas of the state. As of July 2015, the Enterprise Zone Program has accounted for 979 projects with 405,473 jobs (new and retained) and \$74.1 billion in capital investment.

Approved projects are eligible to apply for state sales and use tax refunds on qualified expenditures. The level and amount of refund is related to the capital investment and jobs created at the qualified business site. A program overview is included below.
