

Street Safety Action Plan (SSAP)

The Street Safety Action Plan (SSAP) makes recommendations for new policies, programs, and projects to achieve the goal of ending severe and fatal roadway crashes on the City of New Braunfels roads. The SSAP will also qualify the City of New Braunfels for federal Safe Streets for All grants, aiding the city in implementing roadway infrastructure designed to keep New Braunfels residents safe. One of the federal requirements for the Action Plan is that a board or committee be charged with the plan's development, implementation, and monitoring. By charging the Transportation and Traffic Advisory Board to serve as the City of New Braunfels Street Safety Action Plan Task Force, the city opens new opportunities for federal infrastructure funding and ensures future Street Safety programs and projects are heard by a core group of engaged citizens.
