3. APPROVAL OF MINUTES

Approval of the February 26, 2026 minutes – with the correction of Lois Schmick spelling

4. CITIZEN’S COMMUNICATIONS

Lois Schmick attended to gain more information on the Cemetery Committee. She was interested in seeing how the Field of Graves project is moving forward.

5. DISCUSSION AND ACTION

a. Field of Graves

During the project update presented by Bernadette Faust, the committee discussed the memorial’s design and the upcoming requirements for signage. While reviewing the aesthetic details, members raised concerns regarding the use of natural shells; in response, TCS will explore the use of concrete molds to replicate the seashell textures more durably. The group also committed to collaborating on the specific text for the project's signage. Following the discussion, Dana motioned to move forward with the final design, which was seconded by Cynthia and passed via a unanimous vote. Bernadette will continue to manage the project's progress and provide the committee with ongoing updates.

b. National Register Nomination

Katie Totman addressed the committee regarding the current nomination, requesting that members review the draft in its current form. She asked the group to provide their feedback directly to her so she can consolidate the input for submission to Cherise.

c. Cookbooks

Shari Silvio with Parks and Recreation presented the cookbook financials.

d. Soul Searching

The Sign-Up Genius has been distributed for actor and tour guide positions. Lynn reported that she has been in contact with several potential volunteers for acting roles. As the event draws closer, the group will begin developing the specific "souls" and their corresponding scripts. The committee also discussed the halftime programming, suggesting a science show; Lynn will reach out to Michelle Lord to draft a performance piece for Marshall Lord to present.
