# Continue Engagement Through The Policy Lifecycle

Don't let the community input and dialogue conclude with the survey.

## Identify Sentiment Baselines and Trends

- Conduct annual surveys, performance metric checks, and other broadly-scoped questionnaires for feedback
- Establish a baseline understanding and discover new trends in sentiment

*"How satisfied are you with (parks, roads, transportation, economic development)?"*

*"How would you rank our community as a place to live?"*

## Crowdsource Concerns, Brainstorm Ideas

- Seek community input through structured discussions that uncover new ideas and solutions
- Tap individual perspectives and wisdom often unheard at town halls

*"What sort of amenities would you like to see more of downtown?"*

*"What events would you like to see more of being held on a Friday Night?"*

## Prioritize Initiatives and Alternatives

- Engage your constituents on fund allocation exercises and participatory budgeting projects
- Determine community priority areas that may require additional focus

*"How would you allocate next year's budget across the following initiatives?"*

*"Which of the following options for an aquatic center would you prefer?"*

## Collect Verified Input on Specific Proposals

- Receive citable input on hot topic issues that consume open listening sessions
- Gauge final community sentiment before beginning on costly, controversial projects

*"Would you be willing to pay \$3.18 a month more for bi-weekly curbside recycling?"*

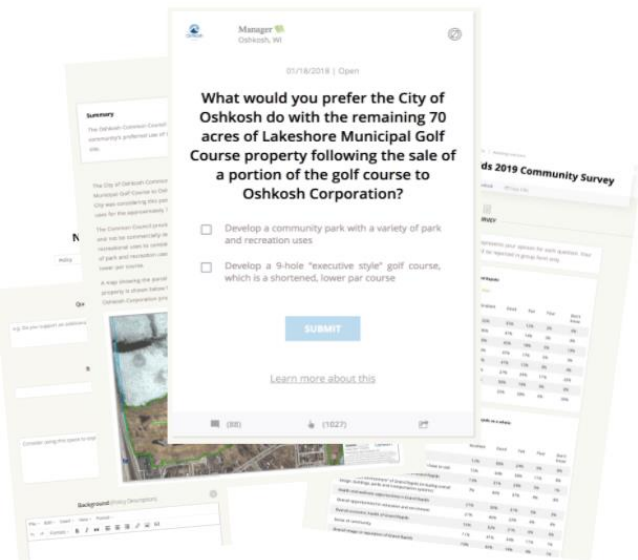

*"Do you believe we should be using pesticides on public property?"*

Identify opportunities for improvement. Engage along the way to cultivate buy-in. Demonstrate progress. Repeat.
