

City of San Marcos, Texas

DIVISION 2. - TRAFFIC CONTROL DEVICES

Sec. 82.066. - Authority to install.

- (a) The installation of the following traffic control devices shall require approval from the city council by ordinance:
 - (1) Traffic signals;
 - (2) One-way streets;
 - (3) Speed limits;
 - (4) Time-restricted parking meters and parking meter areas and all other parking regulations not specifically delegated to the traffic engineer under this chapter; and
 - (5) All other regulatory signs where the authority to install is not specifically delegated to the traffic engineer in subsection (b) of this section.
- (b) The city traffic engineer shall have the authority to install the following traffic control devices:
 - (1) Stop signs, yield signs and multiway stop signs and signals;
 - (2) Parking restrictions delegated to the traffic engineer as set out under this chapter;
 - (3) Prohibited turns or lane uses;
 - (4) Crosswalks;
 - (5) Traffic lanes and pavement markings;
 - (6) Loading zones or bus stop zones; and
 - (7) Truck routes through the city.

(Code 1970, § 29-3)

Sec. 82.067. - Traffic register.

The traffic engineer shall develop and maintain a traffic register containing a record of every location in the city where any traffic control device or special regulation is made applicable, whether by ordinance or by the traffic engineer's authority established under this chapter. The traffic register shall be continuously maintained by the traffic engineer, and all persons shall be charged with notice of its contents. Defects, omissions or entries of the traffic register shall not constitute a defense to prosecution for traffic law violations. Whenever any traffic control device or special regulation no longer applies in the city, the record of the location shall remain in the traffic register, but shall be prominently marked "deleted" by the traffic engineer, who shall also note the date of the deletion and the authority therefor.

(Code 1970, § 29-4)

Sec. 82.068. - Conformity with manual.

All traffic control signs, signals and other devices shall conform to applicable provisions of the current state Manual on Uniform Traffic Control Devices.

(Code 1970, § 29-5)

City of Schertz, Texas

ARTICLE III. - TRAFFIC-CONTROL DEVICES^[2]

Footnotes:

--- (2) ---

State Law reference— Municipal authority to regulate by traffic control devices, Tex. Transportation Code, § 542.202(a)(1).

DIVISION 1. - GENERALLY

Sec. 86-86. - Installation and maintenance generally.

The traffic engineer shall place and maintain traffic-control signs, signals and devices when and as required under this chapter and other traffic ordinances, to make effective the provisions thereof, or under state law, or to guide or warn traffic.

(Ord. No. 95-D-36, § 18-55, 11-21-1995)

Sec. 86-87. - Conformity with state highway department requirements; uniformity.

All traffic-control signs, signals and devices shall conform to the manual and specifications approved by the state highway department. All signs and signals required for a particular purpose shall, so far as practicable, be uniform as to type and location throughout the city. All traffic-control devices so erected and not inconsistent with the provisions of state law or this chapter shall be official traffic-control devices.

(Ord. No. 95-D-36, § 18-56, 11-21-1995)

Sec. 86-88. - Designation of crosswalks and safety zones; laning streets for traffic.

The traffic engineer is hereby authorized:

- (1) To designate and maintain, by appropriate devices, marks or lines upon the surface of the roadway, crosswalks at intersections where, in his opinion, there is particular danger to pedestrians crossing the roadway, and at such other places as he may deem necessary.
- (2) To establish safety zones of such kind and character and at such places as he may deem necessary for the protection of pedestrians.
- (3) To make lanes for traffic on street pavements at such places as he may deem advisable, consistent with this chapter.

(Ord. No. 95-D-36, § 18-57, 11-21-1995)

City of Seguin, Texas

ARTICLE II. - TRAFFIC CONTROL DEVICES^[2]

Footnotes:

--- (2) ---

State Law reference— Authority of city to regulate traffic by means of traffic-control signals, Vernon's Ann. Civ. St. art. 6701d, §§ 27(a)(2), 31.

Sec. 98-36. - Installation and maintenance.

The traffic engineer shall place and maintain traffic control signs, signals and devices when and as required under this chapter and other traffic ordinances to make effective the provisions thereof or under state law or to guide or warn traffic.

(Code 1964, § 26-68)

Cross reference— Streets, sidewalks and other public places, ch. 90.

Sec. 98-37. - Designation of crosswalks and safety zones; laning streets for traffic.

The traffic engineer is authorized to:

- (1) Designate and maintain, by appropriate devices, marks or lines upon the surface of the roadway, crosswalks at intersections where, in his opinion, there is particular danger to pedestrians crossing the roadway, and at such other places as he may deem necessary.
- (2) Establish safety zones of such kind and character and at such places as he may deem necessary for the protection of the pedestrians.
- (3) Mark lanes for traffic on street pavements at such places as he may deem advisable, consistent with this chapter.

(Code 1964, § 26-72)
