# Highland Grove Planned Development District

## Development Standards

1. This planned development project conforms to the City of New Braunfels comprehensive development plan based on the maps located at the City of New Braunfels, Comal County, Texas. The current zoning map shows this area as Planned Development District and the Future Land Use Plan distinguishes the property as Low Density Residential. This project is proposed to be 3.45 lots per acre which is considered to be low density. The base zoning district for this project is R-1A.
2. The total acreage for this development is 228.685 acres of which 228.685 acres being single family residential.
3. Reference property lies within the Comal County Independent School District.
4. A 20' public utility easement (PUE) will be dedicated adjacent to all street right of ways.
5. No portion of this site is located with the 100-yr FEMA flood plain as designated on Community Panel 48091c0445 f, dated: September 2, 2009.
6. A Homeowner's Association will be created during engineering design phase of the project.
7. This property will be served by the following:
  - New Braunfels Utilities - water, sewer, and electric
  - AT&T phone service
  - Time Warner Cable TV

### **Design Regulations**

8. All residences immediately adjacent to the Vista Hills Subdivision shall be single story.
9. A minimum six foot tall masonry wall/fence shall be constructed adjacent the single family residences abutting the future FM 1044 extension, or, the developer shall provide adequate set-back and/or other sound abatement measures for future noise mitigation per the Texas Department of Transportation Guidelines for Analysis and Abatement of Highway Traffic Noise.
10. Tree Note: Developer/Builder agrees to plant a minimum of one (1) front yard tree per lot at the time of building construction.

11. Conditions of care of drainage areas shall be as follows and in addition to City ordinance:
  - a. All grass areas to be maintained at 12" or less in height and no less than twice a year.
  - b. All detention ponds to be maintained at 12" growth height or less and shall be evaluated by an engineer for silt build-up and performance at least once every five years with a report submitted to the City of New Braunfels engineering department.
  - c. All drainage and detention areas located on separate lots will be maintained by the Homeowner's Association.
12. No cluster mail boxes are to be installed on Vista Place.
13. The drainage areas abutting the homes on Vista Parkway are to be concrete lined.
14. Residential development standards as per New Braunfels Municipal Code Section 3.5-5(f):
  - a. Minimum lot area = 6,000 s.f. and 7,200 s.f.
  - b. Minimum lot width and depth = 50' (width) x 120' (depth) & 60' (width) x 120' (depth) - regular lots  
35' (width) x average of 120' (depth) - irregular lots  
\*At setback, all irregular lots have width of 50' minimum
  - c. Minimum front, side, and rear setbacks:  
Front = 25'  
Rear = 20'  
Side = 5'; For corner lots, the side setback is either 15' or 25' depending on the orientation of adjacent lots\*.  
\*If the rear lot line of the corner lot shares a side lot line with the adjacent lot, the side setback shall be consistent with the adjacent lots front setback, therefore, 25'. If the rear lot line of the corner lot shares a rear lot line with the adjacent lot, then the side setback is 15'.
  - d. Maximum height of buildings: 35'
  - e. Maximum building coverage: 50%
  - f. Maximum floor to area ratios for non-residential use: n/a
  - g. Minimum parking standards for each general land use: residential - 2 cars/lot
15. The individual homebuilder/developer shall be responsible for construction of a 4-foot concrete sidewalk adjacent to the back of curb inside the right-of-way. The developer of this project shall be responsible for construction of a 4' concrete sidewalk adjacent to the back of curb inside the right-of-way at common areas,

drainage easements, and all other areas where sidewalk is required to be constructed.

16. Items which may require a reduction of lots:
  - a. Coordination with gas companies regarding crossing requirements for street and drainage facilities.
  - b. Final sizing of drainage and utility easements.
  - c. Drainage study regarding final detention pond sizing.
  - d. Final ground topography versus aerial topography.
  - e. Additional utility easements or modification of drainage/utility easements.

#### **Transportation Related**

20. All streets are typical 50' right-of-way unless otherwise shown.
21. In lieu of construction of County Line Road, the estimated costs of such construction may instead be applied to offsite improvements, as determined at the completion of the TIA and under the construction and financing guidelines applicable to such offsite improvements, through a development agreement approved by City Council before approval of final plat.

### **Performance Guarantee**

The purpose for this Performance Guarantee is to ensure that drainage facilities for the Highland Grove Subdivision are constructed in accordance with the approved design criteria (as detailed in the approved drainage report) and all applicable City of New Braunfels ("City") rules and regulations in effect at the time the Highland Grove Planned Development District Concept Plan (the "Concept Plan") is approved by City Council.

#### **Terms:**

1. All drainage facilities required to be constructed within the Highland Grove Subdivision shall operate to meet or exceed the approved design criteria for their respective Coverage Periods (defined below), provided, however, any drainage ponds and appurtenances for each Drainage Area (as defined on the attached Drainage Area map) may not fully meet the approved design criteria until all streets within that Drainage Area are fully constructed. In the event the City determines that drainage facilities are not required for any Drainage Area, this section of the Development Standards shall be considered null and void in regard to such Drainage Area (or in the whole if drainage facilities are not required for any Drainage Area).
2. As used herein, the term "Coverage Period" shall mean a two (2)-year period of time commencing upon the date that forty percent (40%) of the homes within a given Drainage Area, as illustrated in the attached Drainage Area Map, have been issued certificates of occupancy and one-hundred percent (100%) of the streets and drainage infrastructure has been constructed to service those homes making-up the forty percent (40%) within the Drainage Area (the "Commencement Date"), and ending on the second annual anniversary of such Commencement Date. Each drainage facility within the Highland Grove Subdivision shall be subject to separate Coverage Periods and shall require separate Cash Sureties as described below.
3. In order to provide financial security for the obligation described in Paragraph "1" above, Applicant (as listed on the approved Concept Plan), or his successors and assigns, shall post with the City Cash Surety (as defined below) within thirty (30) calendar days of the Commencement Date for each Coverage Period in the amount of ten percent (10%) of the cost of drainage improvements for that particular Drainage Area. A

statement of construction value shall be provided to the City Engineer to support the Cash Surety Amount.

4. As used herein, the term "Cash Surety" shall mean one of the following, which the Applicant may chose at its own discretion:
  - a. Cash, or its equivalent, delivered to the City and to be held by the City in a separate, interest-bearing account with all interest thereon belonging to the Applicant;
  - b. An irrevocable letter of credit issued by a financial institution reasonably acceptable to the City; or
  - c. A performance bond issued in the name of the City on terms reasonably acceptable to the City.
5. If, during the Coverage Period, the City Engineer, or a third party engineer selected by the City, sends a written notice to Applicant stating in that notice that the drainage improvements for any Drainage Area within the Highland Grove Subdivision is not operating to meet the design criteria specified in the approved design documents (and specifying in such notice the specific deficiencies in such operation), within thirty (30) days thereafter Applicant shall do one of the following: (a) notify the City in writing that the Applicant shall rectify the problems specified by the City Engineer or City's third party engineer, or (b) notify the City in writing that Applicant disagrees with the conclusion of the City Engineer or City's third party engineer. In the event that Applicant fails to send either of the two written notices specified above within such thirty (30)-day period, Applicant shall be deemed to have selected option (a) above.
6. In the event that Applicant notifies the City that Applicant will rectify the problems specified by the City Engineer or City's third party engineer as contemplated in Paragraph "5" above, Applicant shall be required to complete such necessary work in a reasonably expeditious manner, not to exceed ninety (90) days from the date Applicant provides such notice (or, if any permit is required to begin such work, ninety (90) days from the date of issuance of such permit), subject to force majeure and/or any action by the City causing delay.
7. In the event that Applicant notifies the City that Applicant disagrees with the conclusion of the City Engineer or City's third party engineer, the City and Applicant shall agree on another independent third party engineer within fifteen (15) days of the City's receipt of Applicant's written notice. In the event that the City and Applicant fail to agree on the designation of such independent third party engineer within such fifteen (15)-day period, the City shall select such independent third party engineer. The

independent third party engineer shall determine if the drainage improvements for the Drainage Area in question are operating to meet the design criteria in the approved design documents, and the conclusion of the independent third party engineer in that regard shall be binding on the Applicant, its successors and assigns, and the City; provided, however, nothing is intended to modify or reduce Applicant's obligations pursuant to State law (regulatory or common law) with respect to drainage from the Highland Grove Subdivision onto adjoining properties. In the event that the independent third party engineer specifies in a written notice to Applicant that the drainage improvements for the Drainage Area in question are not operating to meet the design criteria in the approved design documents (and specifying in such notice the specific deficiencies in such operation), Applicant shall be required to complete such necessary work in a reasonably expeditious manner, not to exceed ninety (90) days, subject to force majeure or City action causing delay, from the receipt by Applicant of the written notice from the independent third party engineer. Applicant shall be responsible for paying the inspection costs of such independent third party engineer, not to exceed \$3,000.

8. In the event that Applicant fails to rectify the specified problems in the drainage improvements for the Drainage Area in question within the ninety (90)-day period, subject to force majeure or City action causing delay, under either Paragraph "6" or "7" above, the City shall have the right to utilize the Cash Surety to rectify the specified problems in the drainage improvements for that Drainage Area. The City shall be required to notify Applicant in writing of the City's election to utilize the Cash Surety for this purpose.
9. Within 30 days following the expiration of each Coverage Period, the City shall return to Applicant any unused Cash Surety.

### 3.5. *Planned Development Districts.*

3.5-1. *Purpose:* The planned development district is a free-standing district designed to provide for the development of land as an integral unit for single or mixed uses in accordance with a plan that may vary from the established regulations of other zoning districts. It is the intent in such a district to insure compliance with good zoning practices while allowing certain desirable departures from the strict provisions of specific zoning classifications.

3.5-2. *Application:* An application for a planned development district shall be processed in accordance with this Chapter. A pre-planning conference is required between the applicant and the Planning Director prior to the actual filing of the application.

3.5-3. *Base District.* A base zoning district shall be specified. The regulations in the base zoning district shall control unless specifically stated otherwise in the PD.

3.5-4. *District plans and requirements:* There are two types of plans that may be used in the planned development process. The general purpose and use of each plan is described as follows:

- (a) *Concept plan.* This plan is intended to be used as the first step in the planned development process. It establishes the most general guidelines for the district by identifying the land use types, development standards, approximate road locations and project boundaries and illustrates the integration of these elements into a master plan for the whole district.
- (b) *Detail plan.* The detail plan is the final step of the planned development process. It contains the details of development for the property. For smaller tracts or where final development plans are otherwise known, the detail plan may be used to establish the district and be the only required step in the planned development process.

3.5-5. *Concept plan requirements:* Said concept plan shall include the following:

- (a) *Relation to the comprehensive plan.* A general statement setting forth how the proposed district will relate to the city's comprehensive plan and the degree to which it is or is not consistent with that plan and the proposed base zoning district.
- (b) *Acreage.* The total acreage within the proposed district.
- (c) *Survey.* An accurate survey of the boundaries of the district.
- (d) *Land uses.* Proposed general land uses and the acreage for each use, including open space. For residential development, the total number of units and the number of units per acre.
- (e) *General thoroughfare layout.* Proposed streets, as a minimum to arterial street level. (Showing collector and local streets is optional.)
- (f) *Development standards.* Development standards, if different from the base zoning district, for each proposed land use, as follows:
  - (1) Minimum lot area.
  - (2) Minimum lot width and depth.
  - (3) Minimum front, side, and rear building setback areas.
  - (4) Maximum height of buildings.
  - (5) Maximum building coverage.
  - (6) Maximum floor to area ratios for nonresidential uses.
  - (7) Minimum parking standards for each general land use.
  - (8) Other standards as deemed appropriate.
- (g) *Existing conditions.* On a scaled map sufficient to determine detail, the following shall be shown for the area within the proposed district.
  - (1) Topographic contours of ten feet or less.

- (2) Existing streets.
- (3) Existing 100-year floodplain, floodway and major drainage ways.
- (4) City limits and E.T.J. boundaries.
- (5) Zoning districts within and adjacent to the proposed district.
- (6) Land use.
- (7) Utilities, including water, wastewater and electric lines.

3.5-6. *Detail plan requirements:* The application for a planned development district shall include a detail plan consistent with the concept plan. Said detail plan shall include the following:

- (a) *Acreage.* The acreage in the plan as shown by a survey, certified by a registered surveyor.
- (b) *Land uses.* Permitted uses, specified in detail, and the acreage for each use.
- (c) *Off-site information.* Adjacent or surrounding land uses, zoning, streets, drainage facilities and other existing or proposed off-site improvements, as specified by the department, sufficient to demonstrate the relationship and compatibility of the district to the surrounding properties, uses, and facilities.
- (d) *Traffic and transportation.* The location and size of all streets, alleys, parking lots and parking spaces, loading areas or other areas to be used for vehicular traffic; the proposed access and connection to existing or proposed streets adjacent to the district; and the traffic generated by the proposed uses.
- (e) *Buildings.* The locations, maximum height, maximum floor area and minimum setbacks for all nonresidential buildings.
- (f) *Residential development.* The numbers, location, and dimensions of the lots, the minimum setbacks, the number of dwelling units, and number of units per acre (density).
- (g) *Water and drainage.* The location of all creeks, ponds, lakes, floodplains or other water retention or major drainage facilities and improvements.
- (h) *Utilities.* The location and route of all major sewer, water, or electrical lines and facilities necessary to serve the district.
- (i) *Open space.* The approximate location and size of greenbelt, open, common, or recreation areas, the proposed use of such areas, and whether they are to be for public or private use.
- (j) *Sidewalks and bike paths.* Sidewalks or other improved ways for pedestrian or bicycle use.
- (k) If multifamily or non-residential development, a landscape plan.

A detailed plan, with all of the information required of a concept plan, may be submitted in lieu of a concept plan.

3.5-7. *Phasing schedule:* PD districts larger than 350 acres shall provide a phasing schedule depicting the different construction phases.

3.5-8. *Approval of district:* The City Council may, after receiving a recommendation from the Planning Commission, approve by Ordinance the creation of a district based upon a concept plan or a detail plan. The approved plan shall be made part of the ordinance establishing the district. Upon approval said change shall be indicated on the zoning maps of the city.

The development standards and requirements including, but not limited to, maximum height, lot width, lot depth, floor area, lot area, setbacks and maximum off-street parking and loading requirements for uses proposed shall be established for each planned development district based upon the particular merits of the development design and layout. Such standards and requirements shall comply with or

be more restrictive than the standards established in the base zoning district for the specific type uses allowed in the district, except that modifications in these regulations may be granted if it shall be found that such modifications are in the public interest, are in harmony with the purposes of this Chapter and will not adversely affect nearby properties.

3.5-9. *Planning Commission approval of detail plan:* The Planning Commission is authorized to approve a detail plan or the amendment of a detail plan for property for which a concept plan has been approved by the City Council. If the City Council initially approved a detail plan in establishing the district, the detail plan may only be amended by the City Council. The approved detail plan shall be permanently filed in the Planning Department. The Planning Commission shall approve the detail plan if it finds that:

- (a) *Compliance.* The plan complies with the concept plan approved for that property and the standards and conditions of the PD district;
- (b) *Compatibility.* The plan provides for a compatible arrangement of buildings and land uses and would not adversely affect adjoining neighborhood or properties outside the plan; and
- (c) *Circulation of vehicular traffic.* The plan provides for the adequate and safe circulation of vehicular traffic.

If no detail plan has been approved for the property within ten years of the date of approval of a concept plan, the detail plan must be approved by the City Council, after receiving a recommendation from the Planning Commission, after notice and hearing.

3.5-10. *Expiration of detail plan:* A detail plan shall be valid for five years from the date of its approval. If a building permit has not been issued or construction begun on the detail plan within the five years, the detail plan shall automatically expire and no longer be valid. The Planning Commission may, prior to expiration of the detail plan, for good cause shown, extend for up to 24 months the time for which the detail plan is valid.

3.5-11. *Appeals from Planning Commission action:* If the Planning Commission disapproves a detail plan over which it has final approval authority, or imposes conditions, or refuses to grant an extension of time for which a detail plan is valid, the applicant may appeal the decision to the City Council by filing a written request with the Planning Director within ten days of the decision.

3.5-12. *Changes in detail plan:* Changes in the detail plan shall be considered the same as changes in the zoning ordinance and shall be processed as required in Section 2.3. Those changes which do not alter the basic relationship of the proposed development to adjacent property and which do not alter the uses permitted or increase the density, floor area ratio, height, or coverage of the site, or which do not decrease the off-street parking ratio or reduce the yards provided at the boundary of the site, as indicated on the approved detail plan, may be authorized by the Planning Director. Any applicant may appeal the decision of the Planning Director to the Planning Commission for review and decision as to whether an amendment to the Planned Development District ordinance shall be required.

3.5-13. *Minimum development size:* The total initial development of any Planned Development District shall not be less than two acres for nonresidential developments and five acres for residential developments.

3.5-14. *Deviation from code standards:* The City Council may approve a PD concept plan with deviations from any provision in the Code of Ordinances. Such deviations shall be listed or shown as part of the Ordinance that approves the concept plan.

### 3.4-2. "R-1A-6.6" single-family district.

*Purpose.* The R-1A-6.6 single-family district is intended for development of primarily detached, single-family residences and customary accessory uses on lots of at least 6,600 square feet in size. The following regulations shall apply in all "R-1A-6.6" districts:

*"R-1A" district.* The district called "R-1A" shall be renamed and shown on the zoning map as "R-1A-6.6".

- (a) *Authorized uses.* Uses permitted by right shall be those set forth in the Land Use Matrix in Section 4 of this Chapter. The allowed uses in the district, which are intended to be identical with those listed in the Land Use Matrix, are as follows

(1) *Uses permitted by right:*

Residential uses:

- Accessory building/structure
- Accessory dwelling (one accessory dwelling per lot, no kitchen)
- Community home (see definition)
- Family home adult care
- Family home child care
- Home Occupation (See Sec. 5.5)
- One family dwelling, detached
- Single family industrialized home (see Sec. 5.8)

Non-residential uses:

- Barns and farm equipment storage (related to agricultural uses)
- Church/place of religious assembly
- Community building (associated with residential uses)
- Contractor's temporary on-site construction office (with permit from Building Official; Sec 5.10)
- Farms, general (crops) (see Chapter 6, Municipal Code and Sec. 5.9)
- Farms, general (livestock/ranch) (see Chapter 6, Municipal Code and Sec. 5.9)
- Golf course, public or private
- Governmental building or use with no outside storage
- Park and/or playground (public)
- Public recreation/services building for public park/playground areas
- Recreation buildings (public)
- School, K-12 (public or private)
- Water storage (surface, underground or overhead), water wells and pumping stations that are part of a public or municipal system

- (2) *Conflict.* In the event of conflict between the uses listed in the Land Use Matrix and those listed in Subsection (1), the uses listed in this subsection shall be deemed those authorized in the district.

(b) *Height and area requirements:*

(1) Residential uses.

- (i) *Height.* 35 feet.
- (ii) *Front building setback.* 25 feet.
- (iii) *Side building setbacks.* There shall be a side building setback on each side of a building not less than five feet in width. Buildings on corner lots shall have 15-foot side building setbacks adjacent to the street where the rear lot lines of the corner lots coincide with the rear lot lines of the adjacent lots. Buildings on corner lots shall have 25-foot side building setbacks adjacent to the street where the rear lines of the corner lots coincide with the side lot lines of the adjacent lots.

- (iv) *Garage setback.* Where a driveway is located in front of a garage, the garage shall be setback 20 feet from the right-of-way or the driveway to the garage shall be at least 20 feet long to provide enough space for a vehicle to park without overhanging into the right-of-way, if the garage door is closed. (See Illustration 8 in Sec. 5.1-1)
  - (v) *Rear building setback.* 20 feet.
  - (vi) *Width of lot.* The minimum width of an interior lot shall be 60 feet and the minimum width of a corner lot shall be 70 feet.
  - (vii) *Lot area per family.* Every single-family dwelling hereafter erected or altered shall provide a lot area of not less than 6,600 square feet per dwelling for interior lots, and 7,000 square feet per dwelling for corner lots, provided that where a lot has less area than herein required and such lot was in separate ownership prior to September 25, 1967, this requirement will not prohibit the erection of a one-family dwelling. Where public or community sewer is not available and in use, for the disposal of all sanitary sewage, each lot shall provide not less than one half acre per dwelling unit not located over the recharge zone and one acre per dwelling unit located over the recharge zone.
  - (viii) *Lot depth.* 100 feet.
  - (ix) *Parking.* Two off-street parking spaces shall be provided for each one-family detached dwelling. See Section 5.1 for other permitted uses' parking.
- (2) Non-residential uses.
- (i) *Height.* 35 feet.
  - (ii) *Front building setback.* 25 feet.
  - (iii) *Side building setback.* There shall be a side building setback on each side of a building not less than five feet in width. Where any building abuts a property with a one or two family use, the setback from the one or two family property line shall be at least 20 feet plus one foot for each foot of building height over 20 feet.
  - (iv) *Corner lots.* Buildings on corner lots shall have 15-foot side building setbacks adjacent to the street where the rear lot lines of the corner lots coincide with the rear lot lines of the adjacent lots. Buildings on corner lots shall have 25-foot side building setbacks adjacent to the street where the rear lines of the corner lots coincide with the side lot lines of the adjacent lots. Where a minimum 25-foot setback is required, a canopy at least eight feet in height, attached to the main building, may be built within 15 feet of the property line so long as such construction will not obstruct the vision of vehicular or pedestrian traffic.
  - (v) *Garage setback.* Where a driveway is located in front of a garage, the garage shall be setback 20 feet from the right-of-way or the driveway to the garage shall be at least 20 feet long to provide enough space for a vehicle to park without overhanging into the right-of-way, if the garage door is closed. (See Illustration 8 in Sec. 5.1-1)
  - (vi) *Rear building setback.* 20 feet.
  - (vii) *Width of lot.* 60 feet.
  - (viii) *Lot depth.* 100 feet.
  - (ix) *Parking.* See Section 5.1 for permitted uses' parking.
