HOPE HOSPICE SITE PLAN

The Hope Hospice Site Plan, as presented to the Council, shows the completed vision which includes an enlarged Thrift Shop, plenty of parking, and a larger office building. This plan accommodates future growth of services.

As a nonprofit agency we receive much support from the community; however, at times, our vision is limited by financial realities. Due to this, we have broken down our long term plan into three phases.

Phase one is currently in operation. Our budget contains funds for purchasing the duplex behind the main office building, Thrift Shop renovation, and parking lot expansion on the land currently owned. Timing of this phase was planned with the work on Walnut Street in mind, as Thrift Shop revenues are expected to decrease due to road construction. Phase one should be completed by June 2013.

Phase two is expected to take 2-5 years; again, funds to complete the project will determine some of the timing. This phase includes removal of the duplex at 12 Cane Street and turning the lot into additional parking.

Until phase two begins, options for we would like to consider concerning the duplex include renting as currently the case, temporary conversion to a hospice residential unit, or using as additional office space and/or storage. With the residential unit, patients and their families will rent the duplex for short time periods. Hospice regulations require a home setting so the neighborhood should not see any differences between regular renters and residential renters.

If we were to use the duplex as office space or for storage, we would remove the wood fence only on the very back of the property and use the back doors as main entries. Parking would be in existing parking lots; it is not our intent to utilize the driveway on Cane Street in any way.

Once phase two is complete, fundraising for the current office building expansion will begin. We believe the entire vision may take eight to ten years to complete.
