The Historic Landmark Commission (HLC) reviews proposed exterior and site changes to City Historic Landmarks and properties in Local Historic Districts to assist owners in retaining the character-defining architectural features of important historic sites and districts. An approved Certificate of Alteration from the HLC is required in advance of performing all non-routine exterior and site work, including installation of signage. Your building permit will not be released without an approved Certificate of Alteration review by the City Historic Preservation Officer (HPO) or the HLC.

A Certificate of Alteration is required for all non-routine exterior work, including:

- Alterations to historic materials;
- Alterations to the visual appearance of a site;
- Alterations to building façade;
- Additions to existing buildings;
- Re-cladding;
- Window replacement;
- Construction of new buildings;
- Changes in roof color or materials;
- Major landscape work (including pools);
- Changes in sidewalks; and,
- Changes in driveways.

Historic Landmark Commission review is usually not required for ordinary maintenance work such as re-painting and performing routine repairs using like materials. Please check with the City HPO if you are uncertain whether an HLC review is required.
