Explain the following in detail:

Please note: The information provided in response to the following questions is imperative to the variance request process. You may use additional pages if necessary.

(1) What are the special circumstances or conditions affecting the land that warrant the variance?

It's in the flood plain which effects building. Also the lot is only 40' wide.

(2) Why is the variance necessary to preserve a substantial property right of the applicant?

In order to build an adequate size home a variance is necessary. The width of the lot restricts the buildable width of the home.

(3) Will the granting of the variance be detrimental to the public health, safety or welfare, or injurious to other properties within the surrounding area?

No

(4) Would granting the variance prevent the orderly use of other properties within the area?

No

(5) Does an undue hardship to the land exist that is not self-created, personal or financial?

If yes, please explain in detail. If no, a variance cannot be granted.

Yes, the land is in the floodplain and requires a structure that complies with associated regulations. The land is also only 40 ft. wide which restricts the structure being adequately wide.

(6) Will granting the variance be in harmony with the spirit and purpose of the City's regulations?

Yes, I'm complying with orderly development.
