

majority of the qualified voters of the area of the proposed political subdivision and the owners of at least 50 percent of the land in the proposed political subdivision may petition the City Council to make available to the area the water, sanitary sewer services, or both that would be provided by the political subdivision. If, within 120 days after the date the City Council receives the petition, the City Council fails to make a contract with a majority of the qualified voters of the area of the proposed political subdivision and the owners of at least 50 percent of the land in the proposed MUD to provide the services, that failure constitutes the governing body's consent to the creation of the proposed political subdivision.

ISSUE:

The staff time necessary to process a MUD or other special district petition is significant. Various staff from different departments, plus the services of third-party legal counsel, participate. During the initial application review, if staff discovers missing or incomplete items, time is spent gathering those documents from the petitioner or their representatives. Staff must discuss the petition with pertinent utility providers and other outside agencies, prepare maps, examine the proposal against the Thoroughfare Plan, Hike & Bike Trails Plan, Comprehensive Plan, etc., answer questions from the public, and draft a development agreement and concurrent consent resolution. Throughout the process, staff remains in contact with the petitioner, and engages in negotiation if necessary. Finally, staff prepares the agenda item for City Council consideration.

FISCAL IMPACT:

The Development Fees, such as permit, plan review, rezoning, zoning verification letter, and plat application fees, just to name a few, are intended to cover the cost of the staff and third-party time spent so that taxpayers are not paying the cost to process these developer applications, some of which are for development outside the city limits. Presently, the City of New Braunfels does not charge an application fee for MUD or other special district petitions.

Based on the amount of time spent by various staff, third-party legal services, plus the recordation fee charged by the respective County, staff estimates the average cost to process a MUD petition = \$8,225.91.

Staff has also researched and examined other Texas cities' application/filing fees for comparison*:

- College Station.....\$30,260.00
- Corpus Christi.....\$15,000.00 (PID filing fee)
- Denton.....\$19,210.00
 - \$14,210.00 initial application fee
 - 5,000.00 initial legal deposit
- Georgetown.....\$35,650.00
 - \$20,650.00 initial application fee
 - 10,000.00 initial legal deposit
 - 5,000.00 financial analysis
- Kingsland.....\$ 5,500.00

- Leander.....\$ 7,500.00
 - \$2,500.00 filing fee
 - 5,000.00 legal fee deposit

- San Antonio.....\$ 7,500.00+
 - Plus adoption of a reimbursement agreement for anything over and above
 - Plus \$175.00 per lot assessment that goes into the City’s roadway maintenance fund

- San Marcos.....\$15,844.00

*Several cities contacted either do not have any MUDs yet or have not yet returned our inquiry.

RECOMMENDATION:

Staff recommends bringing forward a MUD/special district petition application/filing fee of \$8,075.00, plus the County recordation fee (currently \$150.00) for City Council consideration. The application/filing fee would be subject to the 3% technology fee charged on all development applications.
