SUBJECT:

Discuss and consider approval of the installation of speed humps on Daisy Way between Marigold Way and Hibiscus.

BACKGROUND / RATIONALE:**Council District: 1**

Citizens submitted a request for the installation of speed humps on Daisy Way between Marigold Way and Hibiscus. Daisy Way is a residential street with a speed limit of 30 mph. The request was evaluated based on petition, operational and geometric requirements established in the City of New Braunfels Speed Hump Policy approved in 1999.

Twenty (20) signatures were required to meet the two-thirds requirement, and 20 signatures were received. An operational requirement in the policy is that the 85th percentile speed must be at least 5 mph over the regulatory speed limit of 30 mph. Traffic data collected on February 10, 2021 showed an 85th percentile speed of 26 mph which does meet the speed criteria in the Speed Hump Policy. Another operational requirement is an average daily traffic rate of 800 vehicles per day. The traffic data collected in February 2021 counted 277 vehicles per day which does not meet the volume criteria in the Speed Hump Policy. These requirements are listed in the attachment to this report.

The Speed Hump Policy also requires proposed speed humps on a street to be approved by the emergency services departments. The New Braunfels Fire Department and the New Braunfels Police Department approve of the installation of speed humps on the requested street.

If the request is approved, the street will be placed on the list of streets eligible for speed hump installation for up to three years. Speed hump projects will be prioritized according to the criteria

established in the Speed Hump Policy. The Speed Hump Policy also states that the alteration or removal of speed humps requires the same petition process as the installation request, with at least two-thirds of all adjacent households and businesses in favor of speed hump removal. The city will not provide any funding for the removal of speed humps if it is requested.

ADDRESSES A NEED/ISSUE IN A CITY PLAN OR COUNCIL PRIORITY:

Envision New Braunfels Strategy 7: Connect All: Action 7.16: Develop a program and process for consideration of citizen requests for neighborhood traffic calming.

FISCAL IMPACT:

Speed hump installation cost including speed cushions, signing and pavement markings for two sets of speed humps costs approximately \$14,000 to \$18,000 depending on location. Funding for speed humps are included in the FY 2021 streets division operating budget and sufficient funds are currently available.

COMMITTEE RECOMMENDATION:

N/A

STAFF RECOMMENDATION:

Staff does not recommend approval of speed humps on Daisy Way between Marigold Way and Hibiscus as it does not meet the speed or volume criteria established in the Speed Hump Policy.
