PRESENTER:

Jeff Jewell, Economic and Community Development Director

SUBJECT:

Discuss and consider adoption of the Development Agreement and associated exhibits for Comal County Water Improvement District Number 3, which is in the Extraterritorial Jurisdiction of the City

DEPARTMENT: Economic and Community Development, Planning and Development Services**COUNCIL DISTRICTS IMPACTED:** N/A**BACKGROUND INFORMATION:**

In 2019, the Texas General Land Office (GLO) solicited proposals for the sale and development of approximately 2,400 acres owned by the state agency. This property is located just north of the city limits of New Braunfels along both the east and west sides of IH 35, within the city's extra territorial jurisdiction (ETJ). In 2020, Southstar Communities, a New Braunfels based developer, began discussions with the City. They sought to negotiate an agreement outlining roles and responsibilities of both the City and the development project. This agreement defines what regulations will govern the development, and how the City will review the project and grant approvals to new developments within the property boundaries. This development agreement covers just under 1,900 acres of the original 2,400, and proposes a mix of residential, commercial and public uses.

Given that the project is within the ETJ, the City's ability to regulate development is limited. Development located within the City's ETJ would not typically have zoning, landscaping requirements, building permit reviews or building safety inspections, and only development regulations associated with platting property would apply. While there are some requirements for projects to meet county fire code, residential projects are

not required to obtain building permits to certify adequate construction, provide drainage mitigation, park land, or a host of other reviews developments in the city currently receive. However, the creation of a special district authorized by the City Council provides for an opportunity to exercise governance and impose regulatory requirements on the project not allowed otherwise.

SouthStar Communities proposes to create a Water Improvement District (WID). The enabling legislation requires the WID to enter a development agreement with New Braunfels prior to its creation. The legislation provides the WID with the authority to impose an assessment to pay for drainage, roads, water and sewer utilities, parks and other items appropriate by law. The assessment's purpose is to provide a reimbursement process to developers for the construction of a variety of public facilities. The Development Agreement authorizes the City to exercise some level of governance over the project on a long-term basis. As a regulatory and legal document, the Development Agreement provides for specific project requirements and processes, to include:

- document definitions;
- entitlement and permitting processes;
- land uses residential unit limits (6,000);
- conditions for when the project must be reviewed by City Council or Planning Commission;
- traffic and roadway impacts and reviews;
- park commitments and delivery schedules;
- bond issuance limits and procedures;
- annexation;
- deed restrictions; and
- utility commitments.

The proposed development will include the following:

- NBU utility service
- 300 acres of public parkland and open space
- Over 13 miles of trails
- Sites for up to four new Comal ISD schools
- 160-acre Employment Center along IH 35
- Up to 6,000 residential units

- Diversity score to encourage a variety of housing types
- Connectivity score
- 17 miles of shared paths and 3 miles of separate bike lanes
- East-west IH 35 Underpass
- Improved and New roadways
- Vegetative stream buffers

ISSUE:

The Development Agreement and associated exhibits must be approved by the City prior to creation of the WID. Exhibits that will be approved with this action are listed below:

- Consent Resolution
- Description of Property
- Code of Ordinances (at approval)
- Development Standards (Development and Design Control Document)
- Master Framework Plan
- Traffic Impact Analysis (Project Transportation Plan)
- Overlapping Property
- Schedule 7- Parks Schedule

The following documents will need to be considered by the City Council at a future date either after the NBU Board or WID board considers and approves the items:

- Utility Agreement
- Strategic Partnership Agreement

FISCAL IMPACT:

N/A. The project is entirely outside the city limits. District residents will not pay city taxes but the City is proposing to

RECOMMENDATION:

Planning Commission held a public hearing on June 21, 2021, and recommended approval unanimously (8-0 with Commissioner Nolte absent.)

Staff recommends approval of the Development Agreement and associated exhibits.
