The subject property is located on the north side of FM 1863 about 1,900 feet west of the intersection of FM 1863 and SH 46, adjacent to the New Braunfels Christian Academy and within the Hoffman Lane Sub Area as identified in the Comprehensive Plan. The one-acre site has 170 feet of frontage on FM 1863. There is currently a single family dwelling on the property.

The applicant originally requested a rezoning from APD to C-1B (General Business District), but agreed to amend his request to C-1A as recommended by the Planning Commission. He has indicated no specific proposed use for the property at this time and intends to sell it, according to his application. The subject property is surrounded by property owned by the New Braunfels Christian Academy that is also zoned C-1A.

General Information:

Size: 1.0 acre

Surrounding Zoning and Land Use:

North - C-1A / New Braunfels Christian Academy

South -	Across FM 1863, R-1 / Undeveloped
East -	C-1A / New Braunfels Christian Academy
West -	C-1A / Undeveloped

Floodplain:

No portion of the property is within the 1% annual chance flood zone (100-year floodplain).

Improvement(s):

There is a single family residence on the property.

Determination Factors:

In making a decision on zoning, the following factors are to be considered:

- Whether the permitted uses will be appropriate in the immediate area, and their relationship to the area and to the City as a whole (*C-1A is intended to provide neighborhood scale uses, generally at intersections of collectors and along neighborhood perimeters. The property is within close proximity of the intersection of FM 1863 and SH 46 and is surrounded on three sides with C-1A.*)
- Whether the change is in accord with any existing or proposed public schools, streets, water supply, sanitary sewers, and other utilities to the area (*The proposed zoning should not conflict with existing or proposed streets or utilities in the area. The property is immediately adjacent to one of the driveways to the New Braunfels Christian Academy and could potentially have an impact on school traffic and/or may require reciprocal access. A traffic impact analysis (TIA) will be required at the time of building permit and may require traffic mitigation measures, depending on the proposed use of the property.*);
- How other areas designated for similar development will be affected (*The proposed zoning should not impact other areas designated for similar development.*);
- Any other factors that will substantially affect the public health, safety, morals, or general welfare (*There should be no other factors that will substantially affect the public health, safety, morals, or general welfare.*); and
- Whether the request is consistent with the Comprehensive Plan (*The request is consistent with the Future Land Use Plan designation of the property as commercial and is located near existing Education and Market Centers.*)
